Video Costs

The type of video and content you require will determine the cost of the entire production. We provide a free consultation to go through your thoughts and ideas where we will advise the best and most cost-effective way forward, after which, we will be able to send you a personalised quote.

Video Editing

These monthly packages are designed to help those who are satisfied with their own ability to film for the purposes they require, but lack the time, skills or patience to edit. The footage is simply sent to us to edit and turn around.

Animated Infographic Videos | Kinetic Typography

from £150.00

These are videos that generally require no filming, but broadcast a direct message in a simple, clear and engaging way by combining animated text with (or without) images and clear language. Moving text in sync with (or without) a voice over, that captures attention, entertains, and engages an audience.

Animated Logos

from £150.00

Short, animated clips of your logo, often integrated with intro's and outro's to indicate the beginning and end of a video. Animated logo's make a video look more professional and strengthen awareness and recognition of your brand.
